Summary

Software engineer and B.Tech Computer Science student with hands-on internship experience in **TypeScript**, **Next.js**, **Node.js**, and **PostgreSQL**. Built authentication systems, **REST APIs**, and **retrieval-augmented generation (RAG)** applications using **Python**, **LangChain**, **FAISS**, and **Gemini**.

Education

Narula Institute of Technology, Kolkata CGPA: 9.05/10
Bachelor of Technology in Computer Science & Engineering *Sep 2023 – Sep 2027*

Experience

GoDatabase LLP Website | June 2026 – Present
Full Stack Developer Intern *Pune, Maharashtra (Remote)*

- Primary contributor to a hiring platform with **161 REST API routes**, **33 data models**, and **61 Next.js pages**, authoring **194 commits** across the frontend and backend.
- Built **authentication flows** covering signup, login, email verification, OTP, and password reset, using **Next.js**, **TypeScript**, and **Tailwind CSS**.
- Developed **RESTful APIs** with **Node.js** and **Express.js**, migrating **MongoDB/Mongoose** logic to **PostgreSQL/Sequelize** while preserving business logic.
- Implemented **JWT** authentication and **OAuth** (Google, GitHub, LinkedIn) via **Passport.js**, resolving token-generation and callback issues that affected session integrity.
- Designed **14-table relational schemas** covering **role-based access control (RBAC)**, profiles, sessions, and audit logs; resolved SQL and frontend issues across production pages.
- Fixed security issues including a **stored XSS** vulnerability and a **signup token bypass**, and replaced section-level admin scopes with **per-action permissions**.

Projects

Medical RAG Chatbot | *Python, LangChain, FAISS, Gemini API, Gradio* GitHub | Mar 2026 – Jun 2026

- Built a **retrieval-augmented generation (RAG)** chatbot over **2,000** MedQuAD medical Q&A pairs using **LangChain**, **FAISS** vector search, and MiniLM embeddings, with **top-4** semantic retrieval and source references in answers.
- Improved reliability with automatic failover across **4 Gemini models** on rate-limit errors and a **response cache** that avoids repeat API calls.
- Resolved an out-of-memory deployment failure by moving to **CPU-only PyTorch**, and added a retrieval latency benchmark.

CodeBlitz | *React, TypeScript, Chrome Extension (Manifest V3), Gemini API, Vite* GitHub | Jul 2025 – Mar 2026

- Built a **Manifest V3 Chrome extension** in **React** and **TypeScript** that adds an AI mock interviewer to LeetCode, using the on-page problem statement as context for **Gemini**.
- Designed interview and mentor modes with **system prompts** that favor hints over solutions, plus a session timer, **Web Speech API** voice input, and per-problem chat history in Chrome storage.
- Routed Gemini calls through a **background service worker** with a 25-second timeout, retries, and model fallback.

Skills

Languages: Python, Java, Kotlin, JavaScript, TypeScript, C++, SQL, HTML, CSS
Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Tailwind CSS, Jetpack Compose, LangChain, LangGraph, Gradio
AI: Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Generative AI, AI Agents, Vector Embeddings, Semantic Search, Prompt Engineering, Natural Language Processing (NLP), FAISS, Sentence Transformers, Gemini API
Backend & APIs: REST APIs, WebSockets, JWT, OAuth, Passport.js, Sequelize ORM
Cloud & DevOps: Docker, Kubernetes, Apache Kafka, CI/CD, Git, GitHub, Vercel, Netlify
Databases: PostgreSQL, MongoDB, MySQL, Firebase, Redis
CS Fundamentals: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), DBMS

Achievements & Leadership

- **Top 5%** of the B.Tech CSE cohort at Narula Institute of Technology.
- Solved **300+ DSA problems** across **LeetCode**, **Codeforces**, and **GeeksforGeeks**; improved rank by **20%** in 3 months.
- **GSSoC 2025 Contributor:** merged **3 pull requests** across **3** open-source repositories, including NotesVault and Canvas.
- **Smart India Hackathon (SIH):** built a working **College ERP** system for a national hackathon with **1M+** students.
- **Quiz Competition Lead Coordinator:** led **5** volunteers to run an inter-department quiz for **100+** participants.

Certifications

Generative AI & LLM Training (30 hrs) – Narula Institute of Technology, CSE Dept., ID: ARDENT/192413 Feb 2026
SAP S/4HANA Application Development – SAP University Alliances Aug–Dec 2025
Programming in Java – Elite (87%) – NPTEL, IIT Kharagpur Jul–Oct 2025
