SUMMARY

Computer Science undergraduate (**CGPA: 9.05/10**, Top 5% of batch) with hands-on experience in AI/ML engineering, RAG pipelines, LLM integration, and full-stack development. Proficient in Python, JavaScript, React, Docker, and Kubernetes with **300+** DSA problems solved across competitive platforms.

PROJECTS

Medical RAG Chatbot

🔗 GitHub

Python · LangChain · FAISS · Gemini 2.5 Flash · Gradio

- Built a medical QA chatbot using RAG on the MedQuAD dataset (**16,000+** curated QA pairs) for context-aware, hallucination-reduced responses.
- Engineered semantic search with FAISS vector store and dense embeddings via LangChain, enabling sub-second retrieval from a large medical corpus.
- Integrated Gemini 2.5 Flash LLM with an external knowledge base, grounding outputs in verified medical literature for improved factual accuracy.

CodeBlitz – AI Learning Assistant

React · TypeScript · Gemini API · Tailwind CSS · Vite

- Developed a Chrome Extension running adaptive AI mock interviews on LeetCode across **2,500+** problems and **20+** algorithm categories.
- Leveraged Gemini API with prompt engineering to deliver context-aware hints and assess understanding of algorithms and time/space complexity.
- Migrated API key handling to background service workers, eliminating client-side exposure; achieved **100%** Lighthouse performance score via Vite optimization.

TECHNICAL SKILLS

Languages: Python, Java, Kotlin, JavaScript, C++, HTML, CSS

Frameworks & Libs: React, Next.js, Tailwind CSS, Jetpack Compose, LangChain, LangGraph

AI & ML: LLMs, RAG, FAISS, Vector Embeddings, Semantic Search, Prompt Engineering, NLP, Model Quantization

DevOps & Cloud: Docker, Kubernetes, Git, CI/CD, Netlify, Vercel, Firebase Hosting

Databases: Redis, Firebase (Firestore, Auth), Apache Kafka

Enterprise & Core: SAP S/4HANA, REST APIs, OOP, Agile, Android Development

KEY ACHIEVEMENTS

Top 5% Academic Rank

Ranked in the top 5% of B.Tech CSE batch at Narula Institute of Technology with a CGPA of **9.05/10**.

300+ DSA Problems Solved

Solved problems across LeetCode, Codeforces, and GeeksforGeeks covering arrays, graphs, DP, and system design — achieving a **20%** rank improvement over 3 months.

100% Lighthouse Score

Attained a perfect Lighthouse performance score for custom-built reusable UI components.

GSSoC 2025 Contributor

Open source contributor at GirlScript Summer of Code, collaborating with **15+** contributors on production open-source repos.

Smart India Hackathon

Participant in SIH — national competition with **1M+** students — delivering solutions under time-constrained, competitive conditions.

EDUCATION

B.Tech in Computer Science

Narula Institute of Technology

Sep 2023 – Sep 2027 · CGPA: 9.05/10

CBSE (86.8%)

BNS DAV Public School

2022 · Jharkhand, India

CERTIFICATIONS

Generative AI Training (30 hrs)

NIT CSE Dept. · Feb 2026 · ID: ARDENT/192413

MEAN Full Stack Web Dev (36 hrs)

IALSD · Aug 2025

SAP S/4HANA Development

SAP University Alliances · Aug–Dec 2025

Programming in Java – Elite 87%

NPTEL · IIT Kharagpur · Jul–Oct 2025

LEADERSHIP

Quiz Competition Lead Coordinator

Led **5** volunteers executing an inter-department quiz with **100+** participants.

Competitive Programming

Solved **50+** timed problems weekly — **20%** rank improvement over **3** months.
